CIA No. 1099

23 July 1968

MEMORANDUM FOR: Arms Control and Disarmament Agency

ATTENTION : Mr. Robert Whipp, Reference Information Center

SUBJECT : Annual Report on Government Sponsored Research in the Field of Arms Control and Disarmament

1. This is in response to Mr. Foster's letter to Mr. Helms, dated 11 July 1968, requesting CIA assistance with the preparation of your annual report.

2. With one exception, this Agency has performed no research which can be identified as an arms control research activity in the context of your report. [redacted] 25X1 [redacted] 25X1 Since we neither control nor direct the research activity, we have not thought it appropriate to execute the ACDA-2 forms.

[redacted] 25X1
CIA Liaison Officer to ACDA

Distribution:
Orig. and 1 - Addressee
1 - BNE (Abbot Smith)
1 - O/DDI [redacted] 25X1
1 - D/OSR
1 - SR/PL

M/R: In this past ~~year~~ this has been handled as a routine administrative report through liaison channels. The level of bureaucratic attention was raised this year because ACDA is not satisfied that all agencies--not necessarily CIA--are giving it proper consideration.

Mr. Foster's letter was not seen by the DCI. [redacted] 25X1 25X1
referred it to [redacted] for action. The DDI portion was 25X1
referred to OSR. By agreement with Abbot Smith [redacted]
I picked up the action for the Agency and returned it to liaison channels. Per Abbot Smith, there is no requirement that the DCI see the reply.

Following components were canvassed: DDS&T; Research Staff, DDI; OCI; OER; OSR.
